200 amp	\$66 a day
400 amp	\$132 a day
600 amp	\$441 a day
Above 600 amps	Metered service only

**Festival Requirements**

The festival organization must provide all materials: cables, breakers or disconnect fuses, etc.

A disconnect shall be provided and located as close as possible to the Division of Power and Water (Power) facilities.

The disconnect switch shall comply with the Division of Power and Water's (Power) standards; the Division of Power and Water retains the right to refuse a connection that is judged non-compliant with the division's standards.

The Division of Power and Water (Power) shall determine the point of connection of each service.

All installations and removals shall be scheduled with a defined date prior to the event. Unscheduled Saturday, Sunday and holiday work will be billed for a minimum of four (4) hours.

For service greater than 600 amps, a meter will be required with inspection through Building Regulation and code enforcement.

If a line extension is required to provide distribution facilities to serve a festival event, the cost of the line extension will be the responsibility of the festival organizer.

Festival organizers should contact the Division of Power and Water (Power) a minimum of two (2) weeks prior to the event for installation and removal.

Fees for energy and installation and removal shall be paid prior to the event.

All terminations and connections for the Division of Power and Water's (Power) facilities shall be performed by employees of the division specifically assigned to the festival. All other access and tampering with division facilities is prohibited.
